

The outcomes we want

We hope to establish through this work:

- ◆ What additional uses of NOS work across the entire Sector
- ◆ What additional uses work, but only in a narrower part of the Sector
- ◆ How these additional uses can be best made to work beneficially

We will deliver to the Sector:

- ◆ A comprehensive Report on this Project
- ◆ A Manual of Guidance for practitioners on the proven additional uses of NOS, and how to put these into practice
